## **About Dassaud Fils®**

**Dassaud Fils®** has been manufacturing high quality professional knives and sharpening tools for over 15 years. They have brought many innovations to the market including: a smaller and lighter weight handle for operators with smaller hands, colored handles to enable easy identification of knives for their respective task or product, and unique serial numbers on each blade for identification or determination of manufacturing specifications.

Blades are made from a high carbon stain-resistant steel alloy for a long lasting edge that is easy to sharpen. The blades and thermoplastic handles are engineered to the highest quality needed for intensive use in meat cutting and food plants. **Dassaud Fils®** quality meets or exceeds the quality of other leading industrial and professional knives on the market.

- **Caribou** – the favorite brand in the French meat industry.
- **SecuriCoupe®** – patented handle that reduces injuries; 1<sup>st</sup> place prize winner for quality, hygiene, and safety categories at the CFIA Trade Faire in Rennes, France.
- **Caribou Ultra-Grip®** - handle with non-slip surface on both sides designed to grip operator's glove to prevent slipping even in the presence of grease. Secure grip minimizes slip injuries and reduces operator fatigue, injuries and tingling sensations.

## **About MPBS Industries**

MPBS Industries is a manufacturer and distributor of equipment and supplies for food processors in the United States and around the globe.

Our product lines include items for grinding, mixing, blending, portioning, injecting, tumbling, filling, slicing, smoking and packaging. Equipment sales are supported by our technicians and by a substantial inventory of machine replacement parts. Food plant and butcher supplies (hand tools, cutlery, clothing, material handling, packaging materials) are offered through our catalog sales department.

Together with our used equipment affiliate, Quality Food Equipment ([www.qualityfoodequipment.com](http://www.qualityfoodequipment.com)), we can provide you with the best combination of new and/or used refurbished meat and food processing and packaging equipment tailored to your requirements. Our experienced technical staff can assist you in selecting and implementing a single item or a complete production line.
